## SOLAR STREET LIGHT

**30W / 60W / 75W**

5,610lm / 11,220lm / 14,025lm

The GFS-200 offers an environmentally friendly, off-grid street lighting solution that operates every night, all year round and avoids the costs of trenching, cabling and mains power connection.

It has been identified as the most reliable, robust, virtually unbreakable solar street light on the market and is consistently chosen by local councils and Government across the globe due to its reliability and ease of installation.

It provides a sustainable lighting option anywhere from the remote locations to inner city suburbia.

### APPLICATIONS
